

# oomph

## oomph designer profile

*Have you ever wanted to pack up and move to your favorite place in the world? Maybe pursue that dream job at the same time? Where would you go? Nina Liddle chose Nantucket. A year-round resident since 1992, Nina, like many others, wanted this tiny Island, rich with history and inspiration, to be her home.*

*Although she's called Nantucket home since the early 90's, Nina did not start her eponymous design firm until 2007. Her passion and talent for design came after she "cut her teeth" renovating and designing several homes of her own on the island. She also had a well-established career in Real Estate on the Island, an ideal way to discover what clients were looking for in a home. Thus, firmly in-trenched in the Nantucket way of life, Nina became the go-to decorator for those wanting a home that is both comfortable and elegant.*

*Nina's quintessential look starts with a neutral backdrop; think white walls, hardwood floors, comfortable sofas and chairs, and crisp white linens. She then adds color – in many forms – adding the Nantucket island vibe of glamour meets family fun. Her look is both refined and daring at the same time. Nina has effortlessly incorporated oomph into many of her homes. Our signature raffia collections have become a signature of Nina's and a favorite of her chic island clients! Our bright lacquer designs are often the anchor of the room or the finishing touch. To see more of Nina Liddle's work, visit her website:*
